shopping cart page		well as the line total and total	total value as well.		
Testing the privacy policy link in the footer	No test data required	Redirects user to the privacy policy page	The link redirects the user successfully to the privacy policy page	PASS	24/04/2026
Testing the terms and conditions link in the footer	No test data required	Redirects user to the terms and conditions page	The link redirects the user successfully to the terms and conditions page	PASS	24/04/2026
Testing the privacy policy side links	No test data required	Moves user to the correct section in the privacy policy page	The side links move the user successfully to the correct section	PASS	24/04/2026
Testing the terms and conditions side links	No test data required	Moves user to the correct section in the terms and conditions page	The side links move the user successfully to the correct section	PASS	24/04/2026
Testing the contact form with valid details	Normal data: Typed valid name, email, subject and message	Form should send and show a success message	Form sends successfully and a success message is shown	PASS	24/04/2026
Testing contact form with empty first name	Erroneous data:Left first name empty	Form should not send and validation message displayed	Form does not send and a validation message is displayed	PASS	24/04/2026
Testing contact form with empty last name	Erroneous data:Left last name empty	Form should not send and validation message displayed	Form does not send and a validation message is displayed	PASS	24/04/2026
Testing contact form with invalid email	Erroneous data:Typed test in email box	Form should not send and validation message displayed	Form does not send and a validation message is displayed	PASS	24/04/2026
Testing contact form with short message	Erroneous data:Typed Hello in message box	Form should not send and validation	Form does not send and a validation	PASS	24/04/2026

		message displayed	message is displayed		
Testing contact form producer drop down	No test data required	User should be able to select a producer	Producer can be selected successfully	PASS	24/04/2026
Testing register page with valid details	Normal data:Typed valid email and password	Account should be created successfully	Account is created successfully	PASS	24/04/2026
Testing register page with empty email	Erroneous data:Left email empty	Account should not be created and validation message displayed	Account is not created and a validation message is displayed	PASS	24/04/2026
Testing register page with invalid email	Erroneous data:Typed football in email box	Account should not be created and validation message displayed	Account is not created and a validation message is displayed	PASS	24/04/2026
Testing register page with weak password	Erroneous data:Typed abc as password	Account should not be created and validation message displayed	Account is not created and a validation message is displayed	PASS	24/04/2026
Testing register page with passwords that do not match	Erroneous data:Typed two different passwords	Account should not be created and validation message displayed	Account is not created and a validation message is displayed	PASS	24/04/2026
Testing sign in page with valid details	Normal data:Typed valid email and password	User should be signed in successfully	User is signed in successfully	PASS	24/04/2026
Testing sign in page with wrong password	Erroneous data:Typed valid email and wrong password	User should not be signed in and validation message displayed	User is not signed in and a validation message is displayed	PASS	24/04/2026
Testing sign in page with empty email	Erroneous data:Left email empty	User should not be signed in and validation	User is not signed in and a validation message is displayed	PASS	24/04/2026

		message displayed			
Testing sign in page with empty password	Erroneous data:Left password empty	User should not be signed in and validation message displayed	User is not signed in and a validation message is displayed	PASS	24/04/2026
Testing forgot password link on the sign in page	No test data required	Redirects user to the forgot password page	The link redirects the user successfully to the forgot password page	PASS	24/04/2026
Testing forgot password page with valid email	Normal data:Typed valid email address	Page should show password reset confirmation	Password reset confirmation is shown successfully	PASS	24/04/2026
Testing forgot password page with invalid email	Erroneous data:Typed test in email box	Page should show validation message	Validation message is shown successfully	PASS	24/04/2026
Testing account profile phone number update	Normal data:Typed 07123456789 in phone number box	Phone number should update successfully	Phone number updates successfully	PASS	24/04/2026
Testing account profile with empty phone number	No test data required	Phone number should be removed successfully	Phone number is removed successfully	PASS	24/04/2026
Testing account email change with invalid email	Erroneous data:Typed hello in new email box	Email should not update and validation message displayed	Email does not update and a validation message is displayed	PASS	24/04/2026
Testing account password change with wrong current password	Erroneous data:Typed wrong current password	Password should not update and validation message displayed	Password does not update and a validation message is displayed	PASS	24/04/2026
Testing personal data download button	No test data required	Personal data file should download	Personal data file downloads successfully	PASS	24/04/2026
Testing delete personal data page link	No test data required	Redirects user to the delete	The link redirects the user	PASS	24/04/2026

		personal data page	successfully to the delete personal data page		
Testing address book page when a user is logged in	No test data required	Page should display the saved addresses	Page displays the saved addresses successfully	PASS	24/04/2026
Testing add new address button	No test data required	Redirects user to the create address page	The button redirects the user successfully to the create address page	PASS	24/04/2026
Testing create address page with valid details	Normal data:Typed valid street, city, postcode and country	Address should be saved successfully	Address is saved successfully	PASS	24/04/2026
Testing create address page with empty street	Erroneous data:Left street empty	Address should not save and validation message displayed	Address does not save and a validation message is displayed	PASS	24/04/2026
Testing create address page with empty city	Erroneous data:Left city empty	Address should not save and validation message displayed	Address does not save and a validation message is displayed	PASS	24/04/2026
Testing create address page with empty postcode	Erroneous data:Left postcode empty	Address should not save and validation message displayed	Address does not save and a validation message is displayed	PASS	24/04/2026
Testing create address page country drop down	No test data required	User should be able to select a country	Country can be selected successfully	PASS	24/04/2026
Testing edit address button	No test data required	Redirects user to the edit address page	The button redirects the user successfully to the edit address page	PASS	24/04/2026

Testing edit address page with valid details	Normal data:Changed street and city	Address should update successfully	Address updates successfully	PASS	24/04/2026
Testing set default address button	No test data required	Selected address should become default	Selected address becomes default successfully	PASS	24/04/2026
Testing delete address button	No test data required	Address should be deleted from address book	Address is deleted successfully from the address book	PASS	24/04/2026
Testing orders page when a user is logged in	No test data required	Page should display the orders	Page displays the orders successfully	PASS	24/04/2026
Testing order details button	No test data required	Redirects user to the order details page	The button redirects the user successfully to the order details page	PASS	24/04/2026
Testing reorder button in the orders page	No test data required	Previous order products should be added to the shopping cart	Previous order products are added to the shopping cart successfully	PASS	24/04/2026
Testing checkout button in the shopping cart page	No test data required	Redirects user to the checkout page	The button redirects the user successfully to the checkout page	PASS	24/04/2026
Testing checkout page with delivery selected	Normal data:Selected saved address and standard delivery	Order should be placed successfully	Order is placed successfully	PASS	24/04/2026
Testing checkout page with collection selected	Normal data:Selected collection date 3 days ahead	Order should be placed successfully as collection	Order is placed successfully as collection	PASS	24/04/2026
Testing checkout page without selecting	Erroneous data:No option selected	Order should not be placed and validation message displayed	Order is not placed and a validation message is displayed	PASS	24/04/2026

delivery or collection					
Testing checkout page delivery with no address selected	Erroneous data:Selected delivery but no address	Order should not be placed and validation message displayed	Order is not placed and a validation message is displayed	PASS	24/04/2026
Testing checkout page collection date too soon	Erroneous data:Selected tomorrow as collection date	Order should not be placed and validation message displayed	Order is not placed and a validation message is displayed	PASS	24/04/2026
Testing checkout page collection date too far away	Erroneous data:Selected date after 7 days	Order should not be placed and validation message displayed	Order is not placed and a validation message is displayed	PASS	24/04/2026
Testing loyalty rewards page when a user is logged in	No test data required	Page should display points, tier and offers	Page displays points, tier and offers successfully	PASS	24/04/2026
Testing redeem offer button with enough points	No test data required	Offer should be redeemed successfully	Offer is redeemed successfully	PASS	24/04/2026
Testing redeem offer button without enough points	No test data required	Button should be disabled and offer should not redeem	Button is disabled and offer does not redeem	PASS	24/04/2026
Testing active loyalty offer in shopping cart page	No test data required	User should be able to select an active offer	Active offer can be selected successfully	PASS	24/04/2026
Testing remove loyalty offer option in shopping cart page	No test data required	Selected offer should be removed from the order	Selected offer is removed successfully from the order	PASS	24/04/2026
Testing transaction history link in loyalty page	No test data required	Redirects user to the transaction history page	The link redirects the user successfully to the transaction history page	PASS	24/04/2026
Testing transaction history Earned filter	No test data required	Page should display earned transactions only	Page displays earned transactions only successfully	PASS	24/04/2026

Testing transaction history Redeemed filter	No test data required	Page should display redeemed transactions only	Page displays redeemed transactions only successfully	PASS	24/04/2026
Testing transaction history reset button	No test data required	Page should display all transactions again	Page displays all transactions again successfully	PASS	24/04/2026
